Study Title: Characterization of Omics Perturbations Driving Leukemia in the Rwandan Population

Introduction and Voluntary Consent

Good morning,

I am Esperance UMUMARARUNGU, the Director of the Molecular and Genomics Unit at the National Reference Laboratory in Rwanda. I am collaborating with researchers from the University of Rwanda and the University of Liège in Belgium on a study focusing on the characterization of omics perturbations driving leukemia in the Rwandan population.

The purpose of this research is to identify key genetic, epigenetic, and molecular changes involved in leukemia development in Rwanda. By understanding the biological mechanisms behind this disease, we aim to improve diagnosis and treatment strategies.

You have been invited to participate in this study due to its significance in enhancing health outcomes in Rwanda. The study has received authorization from the Ethics Committee of the College of Medicine and Health Sciences and the CHUK Ethical Committee. Your participation is voluntary, and you can choose not to participate or withdraw at any time without consequences for you or your family. We will provide you with all necessary information to help you make an informed decision.

A. Purpose of the Research

The aim of this research is to characterize the molecular and genomic changes associated with leukemia among the Rwandan population. Through genomic and epigenomic analyses, we hope to gain insights into the disease and its potential drivers, which will enable the development of personalized treatment approaches.

B. Selection for participation/of participants

You have been invited because you are a leukemia patient in Rwanda. Your participation will contribute to a better understanding of the genetic drivers of leukemia, which could lead to improved diagnostics and treatments. Please take your time to decide, and feel free to discuss this with family or friends. Your participation is voluntary, and your privacy will be strictly protected.

C. Contribution/Role of a participant to the Research

If you choose to participate, we will collect the following:

- A blood sample (10 ml)
- A bone marrow sample, if applicable, as part of your routine medical care
- Clinical information about your leukemia diagnosis and treatment history

Your samples will be anonymized to ensure that you cannot be personally identified. Some tests will be conducted in Rwanda, while others may be performed in collaboration with partner institutions abroad.

D. Samples and Data use and protection

Your samples will be analyzed to study genetic mutations and changes in gene expression associated with leukemia. These analyses will help identify potential biomarkers for diagnosis and treatment. The data will be used for this research and may be shared with other researchers globally under strict regulations. We ensure that your data will be anonymized and only accessible to the research team. It will not be shared with unauthorized persons or used for other purposes without your explicit consent. Your data will not be sold or used for profit.

E. Duration of the Research

Your direct participation involves providing the required samples and information. However, the analysis of your DNA and data may continue for several years as part of ongoing research efforts. Your data and samples may also be used in future research studies.

F. Benefits of Participation

While there is no direct benefit to you, your participation will contribute to the global understanding of leukemia and may help future patients receive better care and treatment.

G. Risks Involved

There are minimal risks associated with this research. Blood and bone marrow sample collection may cause discomfort or bruising at the site, but precautions will be taken to minimize these risks.

I. Voluntary Participation

Your participation is entirely voluntary. You may withdraw at any time without explanation or consequences. You do not need to answer any questions you are uncomfortable with, and you can stop participating at any time.

J. Result Dissemination

You will receive a summary of the overall study results, which will reflect findings for all participants, not individual results. If any significant findings related to your health are

discovered, we will contact you to inform you, provided you express an interest in receiving such information.

K. Participation Compensation

Participants will not receive direct financial compensation, but transport costs will be reimbursed.

L. Contact for Further Information

For any questions regarding this study, please contact:

- Esperance UMUMARARUNGU: (+250) 788287222
 - Chairperson of the CMHS IRB:(+250) 0788 490 522
 - Deputy Chairperson: (+250) 0783 340 040
-

Consent Form

I have been provided all the required information and I understand my role in this study. I understand that I can withdraw from this study at any time without consequences. I consent to participate in this study.

Urupapuro rwo kwemera kugira uruhare mu bushakashatsi

Izina Ry'ubushakashatsi: Isesengura ry'ihindagurika muturemangingo zitera kanseri y'amaraso (leukemia) mu baturage b'u Rwanda

Intangiriro, amakuru ya ngombwan'uburenganzira bwo kwemera cyangwa kwanga kwitabira

Muraho neza,

Nitwa Esperance UMUMARARUNGU, Umuyobozi w'Ishami rishinzwe ipimwa ry'utaremangingo muri Laboratwari nkuru y'Igihugu (National Reference Laboratory) ibarizwa mu Kigo cy'Igihugu gishizwe Ubuzima (Rwanda Biomedical Center). Ubushakashatsi bwacu bufite intego yo *kumenya neza impinduka zitera kanseri y'amaraso (leukemia) mu baturage b'u Rwanda*. nkorana n'abashakashatsi b'Abanyarwanda, barimo abo muri Kaminuza y'u Rwanda, ndetse n'abashakashatsi b'Ababiligi bo muri Kaminuza ya Liège.

Ubushakashatsi bwacu bugamije kumenya neza impinduka zitera iyi ndwara kugira ngo dushobore kunoza uburyo bwo kuyipima no kuyivura.

Wahiswemo kugira uruhare muri ubu bushakashatsi kuko byitezwe ko buzagira ingaruka nziza ku buzima bw'abaturage b'u Rwanda. Ubushakashatsi bwemejwe na Komite y'Ubuvuzi n'Ubuzima ya Koleji ya Medicine na Komite y'Ubuvuzi ya CHUK. Kwitabira si itegeko, kandi ushobora guhitamo kutitabira cyangwa ukava mu bushakashatsi igihe ari cyo cyose nta ngaruka bikugizeho cyangwa bigize ku muryango wawe. Mbere yo gufata umwanzuro, turifuza kuguha amakuru yose akenewe yerekeye ubu bushakashatsi.

A. Intego y'ubu bushakashatsi

Intego y'ubu bushakashatsi ni *kumenya impinduka zishobora guteza kanseri y'amaraso (leukemia) mu baturage b'u Rwanda*. Tuzakora isesengura ry'utaremangingo kugira ngo tumenye imvano nyakuri y'iyi ndwara, kandi ibyo bizadufasha mu gushaka uburyo bwihariye

bwo kuvura abarwayi kugira ngo bagire imibereho myiza. Amakuru azakusanywa azabikwa kandi azakoreshwa gusa mu bushakashatsi buri kubaho n'ubuzaza.

B. Guhitamo uwitabira ubu bushakashatsi

Wahiswemo kwitabira kuko uri muri bamwe bafite kanseri y'amaraso mu Rwanda. Uruhare rwawe ruzadufasha kumenya impamvu zitera kanseri, bizanadufasha kuvura no gupima neza iyi ndwara. Wemerewe umwanya wo kwifata umwanzuro, kandi wemere kugisha inama abo mu muryango wawe cyangwa inshuti mbere yo gufata icyemezo. Kwitabira ni ubushake bwawe, kandi umutekano wawe n'ibanga ryawe bizacungwa neza.

C. Urahare muri ubu bushakashatsi

Niwemera kwitabira, hazakusanywa ibi bikurikira:

- Gufatwa amaraso (mililitiro 10)
- Gufatwa ikizaminin cyo mumusokoro niba ari ngombwa, nk'igice cy'ubuvuzi busanzwe
- Amakuru yerekeye ubuvuzi bwawe, aho waherewe ubuvuzi no ku ivuriro ryawe

Ibizamini byawe bizagirwa ibanga, ku buryo nta muntu uzabasha kukumenya. Ibipimo bimwe bizakorerwa mu Rwanda, ibindi bishobora gukorerwa ku bufatanye n'ibigo by'amahanga.

D. Akamaro k'ibizamini n'amakuru yawe n'umutekano wabyo.

Ibizamini byawe bizasuzumwa kugira ngo hasuzumwe uturema ngingo dufitanye isano na kanseri y'amaraso. Ibisubizo bizadufasha kumenya ibimenyetso bishobora kwifashishwa mu kugena uburyo bwo gupima no kuvura. Amakuru azakoreshwa muri ubu bushakashatsi kandi ashobora gusangirwa n'abandi bashakashatsi ku rwego mpuzamahanga, ariko bikurikije amategeko yokwita k'umutekano n'ibanga ryawe. Nta makuru yawe azagurishwa cyangwa akoreshwe ku nyungu bwite.

E. Igihe bushakashatsi buzamara

Isesengura ry'ADN n'amakuru yawe rizakomeza igihe kirekire mu rwego rw'ubushakashatsi buhoraho. Amakuru n'ibizamini byawe bizashobora gukoreshwa no mu bushakashatsi mugihe kizaza.

F. Akamaro ko kwitabira ubu bushakashatsi

Ntabwo hari inyungu z'umuntu ku giti cye, ariko uruhare rwawe ruzafasha kumenya neza iby'iyi ndwara ya kanseri y'amaraso kandi bizafasha abarwayi bo mu gihe kizaza kubona ubuvuzi bwiza n'ubushakashatsi burambye.

G. Impungenge zagaragara muri ubu bushakashatsi

Hari ibyago bike cyane. Gufata amaraso cyangwa gufata ikizami mu musokoro, bishobora gutera kubabara ahafashwe ikizamini, ariko hazakorwa ibishoboka byose kugirango ibyo byago ntibibe.

I. kwitabira ubushakashatsi

kwitabira ni ubushake bwawe kandi ushobora guhagara igihe icyo ari cyo cyose ubyifuje kandi nta ngaruka uzagira. Ntuzasabwa gusubiza ibibazo udashaka, kandi ushobora gukuramo uruhare rwawe igihe cyose.

J. Ibijyanye n'amakuru y'ibizava muri ubu bushakashatsi

Uzahabwa ishusho rusange y'ibizava muri ubu bushakashatsi izerekana ibijyanye n'itsinda ry'abitabiriye bose. Niba hari ibimenyetso bifatika byerekeranye n'ubuzima bwawe ,uzabimenyeshwa.

K. Ibihembo mukwitabira ubu bushakashatsi

Nta gihembo cy'amafaranga kizahabwa, ariko uzishyurwa amafaranga y'ingendo, kandi uzahabwa amafaranga ibihumbi bitanu (5,000 RWF) kubw'igihe cyawe.

L. Abo wakwegera kugira ngo ukeneye andi makuru

Kubibazo bijyanye n'ubu bushakashatsi, wahamagara:

- Esperance UMUMARUNGU: (+250) 788287222
 - Uhagarariye CMHS IRB:(+250) 0788 490 522
 - Uwungirije uhagarariye Chairperson: (+250) 0783 340 040
-

Ifishi yo kwemera no kwitabira ubushakashatsi

Nahawe amakuru ahagiye n'umva uruhare rwanjye muri ubu bushakashatsi. Ndasobanukiwe ko nshobora gukuramo uruhare rwanjye igihe icyo ari cyo cyose nta ngaruka. Nemeye kwitabira ubu bushakashatsi.
